

# Quick Start Guide

Getting started with Raven Scanner

- 1 Power on and get connected via Ethernet cable, or your preferred wireless network.

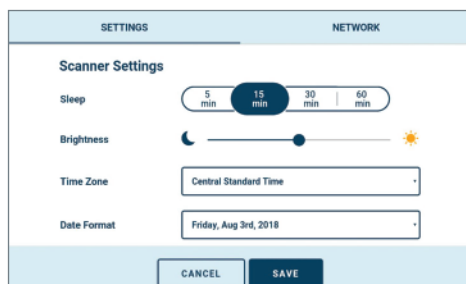

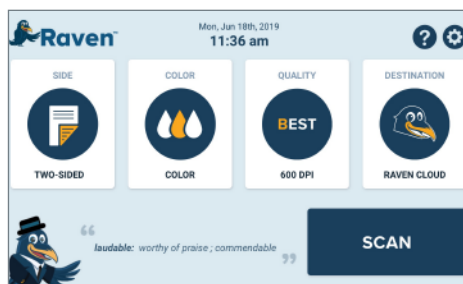

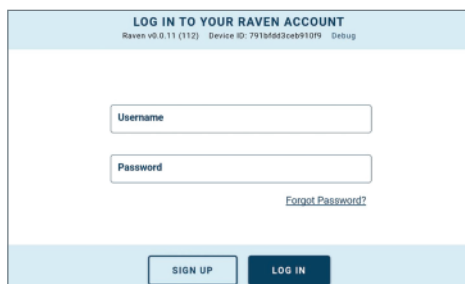

1.1 Connect to available wireless network, or connect via ethernet cable.

1.2 Connect to other network, if your network is not listed to enter manually.

1.3 If an update is required, choose "Update" then "Install", "Install Manually" or "OK" when prompted.

- 2 Sign in to your Raven account, or sign up for free if you don't already have an account.

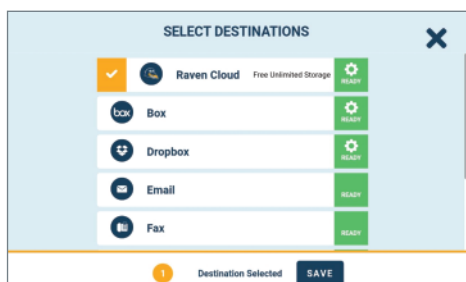

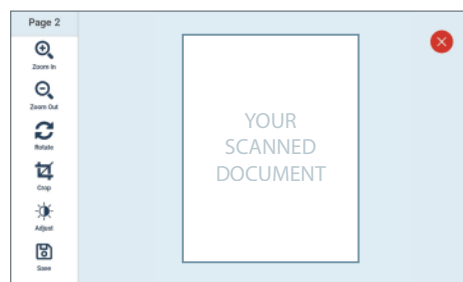

2.1 Sign in to your Raven account, or sign up for a free account.

2.2 Welcome screen shows scan options, and access to the settings menu.

2.3 Settings allow making changes to the scanner and network.

- 3 Scan preview shows scanned pages. You can change the scanned file destination.

3.1 On the scan preview screen, you can remove or reorder pages, select combined or single output files.

3.2 You can edit individual pages by clicking on preview thumbnails.

3.3 Set up destination connections at [app.Raven.com/connect](http://app.Raven.com/connect).

# Scanner Setup Guide

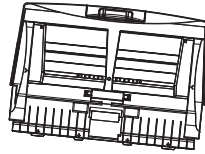

Getting started with Raven Scanner

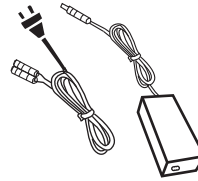

## 1 What's in the box

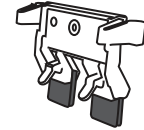

Scanner Main Unit

Paper Tray

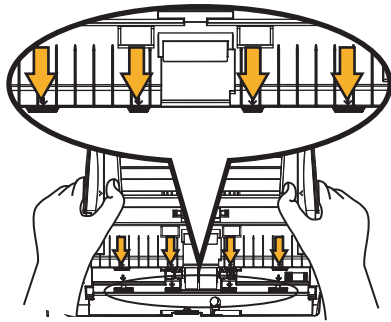

Power Cables

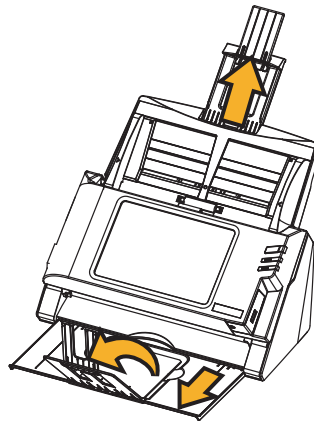

Replacement Pad Module

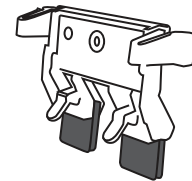

## 2 Install the scanner

**2.1** Open the panel unit by pulling the lever, install the paper chute by aligning and inserting the tabs of the paper chute into their slots on the scanner. Snap panel unit into place.

**2.2** Pull out the output tray to extend fully. Raise the paper stopper to prevent the paper from falling.

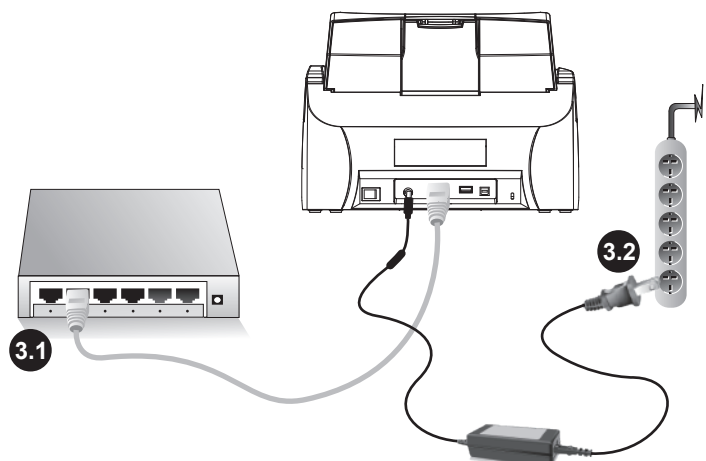

**2.3** Extra replacement pad modules are included for future replacement needs.

## 3 Connect to the power and internet

**3.1** For ethernet connection (optional), connect one end of your Ethernet LAN cable to an available port of your Ethernet Hub. Connect the other end to the port at the back of the product.

**3.2** Connect one end of the power cable to the power receptacle of the product. Connect the other end to an appropriate power outlet. Turn the switch to the "on" position.
