

Quick Start Guide

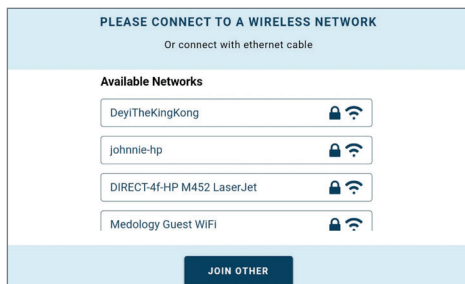

Getting started with Raven Scanner

RavenScanner
Pro™

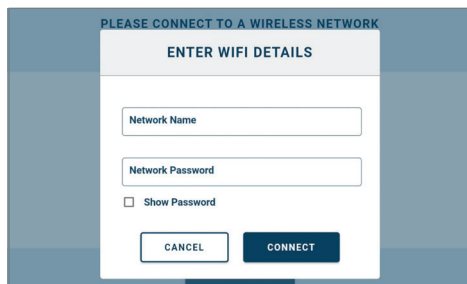

Claim Your **FREE** Product - visit Raven.com/freeproduct

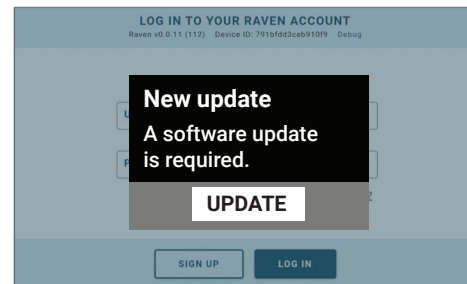

- 1 Power on and get connected via Ethernet cable, or your preferred wireless network.

1.1 Connect to an available wireless network, or connect via ethernet cable.

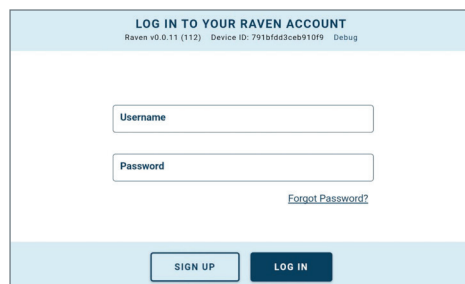

1.2 "Join Other" if your network is not listed to enter manually.

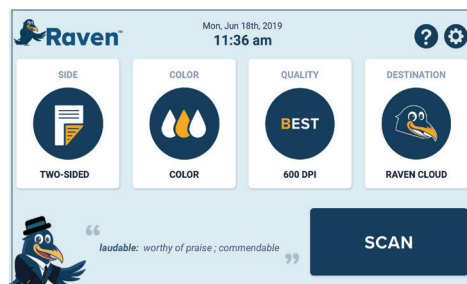

1.3 If an update is required, choose "Update" then "Install", "Install Manually" or "OK" when prompted.

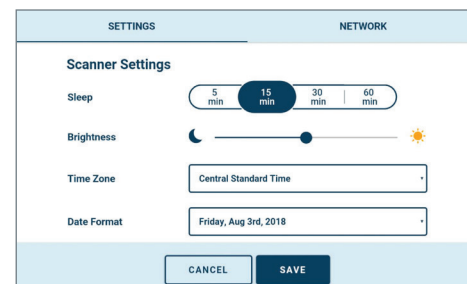

- 2 Sign in to your Raven account, or sign up for free if you don't already have an account.

2.1 Sign in to your Raven account, or sign up for a free account.

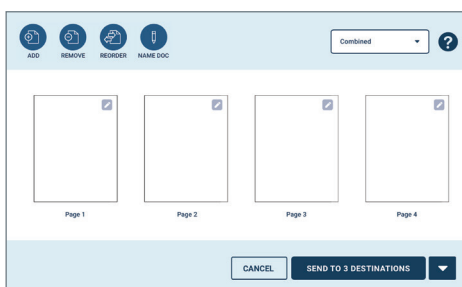

2.2 Welcome screen shows scan options, and access to the settings menu.

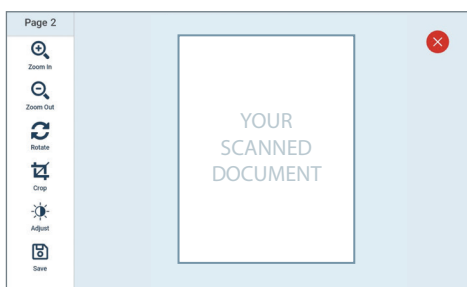

2.3 Settings allow making changes to the scanner and network.

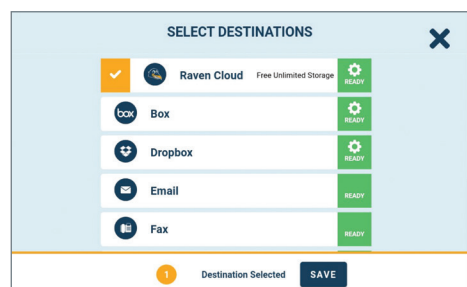

- 3 Scan preview shows scanned pages and allows you to change the scanned file destination.

3.1 On the scan preview screen, you can remove or reorder pages, select combined or single output files, or name the document.

3.2 You can edit individual pages by clicking on preview thumbnails.

3.3 Set up destination connections at app.Raven.com/connect.

1 WHAT'S IN THE BOX

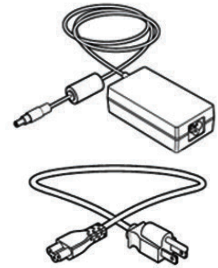

Scanner Main Unit

Paper Tray

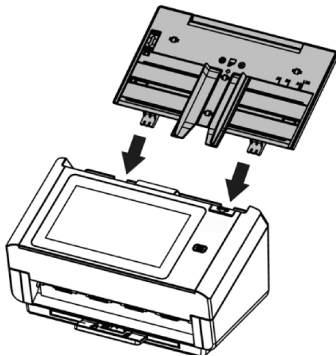

Ethernet Cable

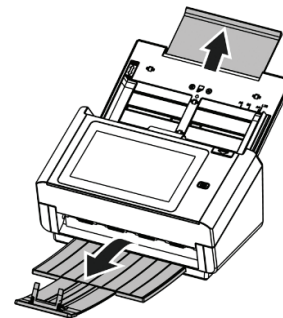

Power Adapter
& Power Cable

2 SET UP THE SCANNER

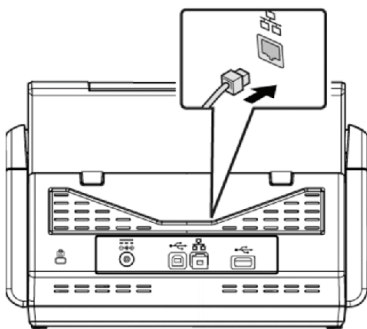

2.1 Hold the ADF Paper Tray and firmly insert the two pins into the holes on the top of the scanner as shown until locked in place.

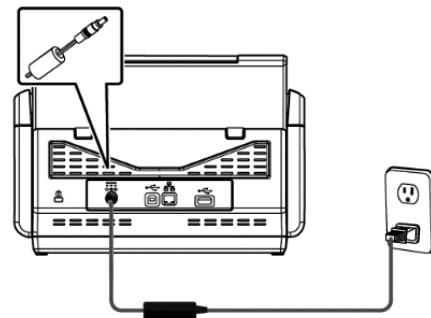

2.2 Pull out the feeder tray extension from the top of the scanner. Firmly pull the Output Tray from the bottom of the scanner and raise the paper stopper to prevent the paper from falling.

3 CONNECT TO POWER AND INTERNET

3.1 Connect one end of your Ethernet LAN cable to an available port of your Ethernet Hub and connect the other end to port marked  at the back of the product, or choose your WiFi network when prompted on the screen.

3.2 Connect one end of the power cable to the power receptacle of the product. Connect the other end to an appropriate power outlet. Turn on by pressing the power button.
